Demography report 2022   23 June 2022

Please select any country or region, then obtain official demographic data, longitudinally if possible. Then conduct demographic analysis and describe its characteristics.

The easiest way to obtain data in R software is to use wpp2019 package for the world, fmsb package for Japan. Anyway, you have to describe how to obtain the data with its source information.

More than 1 page pdf file should be attached on e-mail to minato-nakazawa@people.kobe-u.ac.jp.

Deadline is 30 July 2022.
