Demography report 2024   13 June 2024 (Modified on 4 July)

Please select any country or region, then obtain official demographic data, longitudinally if possible. Then conduct demographic analysis and describe its characteristics.

The easiest way to obtain data in R software is to use **wpp2022** package* for the world, **fmsb** package for Japan. Anyway, you have to describe how to obtain the data with its source information.

More than 1 page **<u>pdf</u>** file should be attached on e-mail to minato-nakazawa@people.kobe-u.ac.jp.

Deadline is ~~31 July 2024.~~ 7 August 2024 (Note: Prolonged by 1 week).

For wpp, see <u>https://population.un.org/wpp/</u>
